

Taking a Chance on Nukes

Tune: 'Taking a Chance on Love'; 1.5 min.

Lyrics: Sunny Armer, NYC Metro Raging Grannies and Their Daughters

Here we go again,
We hear the sirens blow again,
There's an eerie glow again,
Taking a chance on nukes.

White House policy
Says all our e-lectricity
Needs nuclear energy
Making their choice for nukes.

They hand out pills for our thyroids (HAND AT NECK)
And say we won't die.
But unless we are androids
Our other glands will fry.

Mother Earth, we love her here.
Hijackers flew above her here.
We want no duck-and-cover here, (DUCK, COVER HEAD)
Taking a chance on nukes.

We know climate change will be global,
From old fossil fuels
But another Chernobyl
Could warp all our gene pools. (COVER GENES)

Can you stand this strife?
It feels like walking on a knife. (TIP TOE 2 STEPS TO LEFT)
Let kids live more than half a life!
Don't take a chance on nukes!
Don't take a chance on nukes!
