

Let the Whole World Sing

low **F**

Tune: 'I Want the Whole Wide World to Sing', 2.0 min.

Lyrics: Kay Thode

I want to hear the whole world sing
In perfect harmony,
To hear the song of birds, not guns,
Let music set us free.

Free to love and give up hate,
Embrace all humankind.
Let's start today with songs of peace,
Let them fill our minds.

Let's start a revolution,
Of song and love and light,
Let every person on the earth
Lift voices clear and bright.

Let's end the killing and the wars,
And let our songs take flight.
We'll make a peaceful world where all
Live without war and fright.

I want to hear the whole world sing
In perfect harmony,
To hear the song of birds, not guns,
Let music set us free.

Free to love and give up hate,
Embrace all humankind.
Let's start today with songs of peace,
Let them fill all our minds.
