

I'm Dreaming of a Green Planet

low **A**

Tune: 'I'm Dreaming of a White Christmas'; 3.0 min.

Lyrics: Scotty Johnson of Defenders of Wildlife, Arizona

I'm Dreaming of a Green Planet,
Just like the one I used to know,
Where the streams are flowing
And the coral's growing
In oceans that still have some fish.

I'm dreaming of a Green planet,
With every Prius that I drive,
Arctic winters,
The Polar Bear Alive!
And with temperatures below 125.

I'm dreaming of a Green Planet,
Just like the one I used to have,
Where the birds are singing
And seasons bringing
A place for every living thing.

I'm dreaming of a Green Planet
With every Congressman I write,
For the future it's time
We start to dream
Of a planet healthy and green.
