

RADICAL ENVIRONMENTALISTS

Tune: "She'll Be Coming Round the Mountain"

“A”

Oh, we're radical environmentalists,
We are radical environmentalists
We like clean air and clean water,
Just like the farmer's daughter.
'Cause we're radical environmentalists.

Oh, we like our veggies without pesticides,
And our meat without those hormones placed inside.
We like fish without PCB's,
And forests filled with old trees,
'Cause we're radical environmentalists.

We like autos that will cause us no pollution,
And we think laws should provide a sane solution.
We like lawns grown without Weed and Feed,
We'll toss out every gene-spliced seed,
We're radical environmentalists.

We want power that can always be renewed,
And we want to change consumer attitude,
Recycle all your glass and paper,
And then you can inform your maker:
You're a radical environmentalist!
